

Rasant

Product Profile

Rasant

Product Profile

Rasant – the functional sewing thread for a wide variety of uses. Its combination of cotton covering and high-strength polyester core gives Rasant a high breaking resistance and a well-balanced elongation behaviour. In addition, especially the coarser tickets of this thread feature a high thermal resistance. All this guarantees its outstanding performance in the sewing process and in the seam.

Its specially developed finish, its high twist purity and the functional twist design assure Rasant's excellent sewability.

Rasant's outstanding qualities make it the functional sewing thread for the most versatile applications. Because of its high resistance it is especially suited for use in automated, multi-directional sewing machines.

Rasant is available in a wide range of colours, in many strengths and make-up styles – and also in a water-resistant version.

Fields of Application

Rasant 11, 15, 20, 25

The functional tickets for tarpaulins, tents, heavy fabrics, upholstered furniture, etc.

Rasant 30

The special sewing thread with polyamide core for the upholstered furniture and automotive industry.

Rasant 35

The machine-proof sewing thread for quilting seams on jeans, for upholstery, heavy work clothes and any other heavy-duty seams.

Rasant 50

The break-proof sewing thread for leather, jeans, upholstered furniture, slippers and quilting seams.

Rasant 75

The hard-wearing and machine-proof sewing thread for trousers and jeans, for work clothes, mattresses and quilts.

Rasant 120

The machine-proof and powerful sewing thread for skirts, dresses, blouses and shirts, for underwear, swimwear, jersey and knitwear. Suitable for making bed-clothes, curtains and for trimming work.

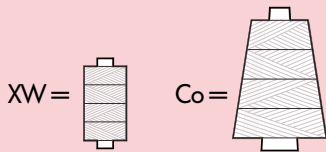

© Olymp

Two large spools of red sewing thread are shown. The spool in the foreground has the word 'AMANN' printed on its central core. The background is a solid red color.

Excellent sewability · machine-proof · universal
